

DONA ANA COUNTY ROAD WORK IS APPORTIONED BY THE COUNTY BOARD

Camino Real Is to Be Built at Once and Other Roads in All Sections of the County to Be Built—Plan Agreed Upon at a Meeting of the Board Wednesday—Las Cruces Locals.

LAS CRUCES, N. M., June 12.—The most important meeting of the Dona Ana county board of supervisors in the history of the county took place yesterday, when the county board met to take action upon the general plan for road construction from the \$100,000 county bond issue approved by the county last week.

County road engineer J. D. Meriwether presented to the board in detail various recommendations in regard to road building, which, with others previously laid before the board, were carefully considered.

Work Decided Upon.
As a result, the road board decided upon the following steps:

To grade practically all of the dirt roads in the county.
To surface as many miles as possible, by building a high-grade gravel road from native material. This road will have an 18 foot crown, with a gravel road built in the center nine feet wide, and on heavily traveled sections 15 feet wide; the gravel to be nine inches deep;

five inches of coarse material covered by four inches of the finer.

To expend approximately \$50,000 of the county bond issue money upon the Camino Real, \$20,000 upon the west side valley road and the balance in other parts of the county.

The board also authorized the purchase of an oil tractor for gravel hauling and road grading work, a road grader, and dump wagons to use in connection therewith, a gravel screening plant and a pile driver.

To Be Fair to All Parts.

This action was taken by the board after securing the opinions of various people throughout the county, and from a sincere desire to do justice to all parts of the county. The plan to grade dirt roads was adopted in conjunction with the plan heretofore approved by the board of dragging all dirt roads in the county, so far as possible, after a rain. The dragging of roads in Dona Ana county has proved to be the most valuable of all the various expenditures of road funds; as the dragged roads not

only are put in splendid condition after a rain, but hold up during the dry weather much better than roads which are not dragged.

Ready for Work.
The engineering force of the Dona Ana county road board has already been established. The county road engineer, J. D. Meriwether, was appointed some months ago, and his assistants, Leonard Thomas and Sam Rousman, are already at work in the field, placing the stakes for the road building that is to be undertaken as soon as the necessary machinery arrives.

Maccabee Socials.
Las Cruces Ladies of the Elks' hall gave an "at home" in the Elks' hall yesterday afternoon in honor of Mrs. Hart, of San Antonio, Texas, who is state commander in the states of Louisiana, Texas and New Mexico. A large number of women were present. The costumes displayed were elegant. The afternoon was spent playing cards and "42." Dainty refreshments were served at small tables. Each guest was given a bouquet of sweet peas as a favor.

Mrs. Hart was called upon at the close of the refreshment hour and gave a brief talk on the Maccabee work and the benefits derived therefrom, both from a business and social standpoint.

Mrs. Hart will remain here about three weeks to reorganize the Maccabee hive in Las Cruces.

A number of young people left here this morning for the Modoc mines in the Organ mountains, where they will remain until next Monday. They will be with them a camping outfit. The party consisted of Misses Lina and Blanche Brownlee, Annie and Florence Quisenberry, Mabel and Freda Hendricks, Margaret Tutwiler and Arta Bradley, and Mrs. Myra De Rode, and Messrs. Fred Quisenberry and Thomas Tutwiler.

Two large wagons were used to convey the party and equipment.

To Deliver Lectures.

Judge Edward Baker of Las Cruces will deliver lectures on the French revolution in the armory here this evening and tomorrow evening. Mr. Baker will start out on a lecture course tour in the near future, but will deliver his lectures at his home town first.

There was a heavy dew here this morning.

Ruth, the 3 year old daughter of Mr. and Mrs. Ralph French, on Griggs street, is recovering from an attack of measles. Dr. and Mrs. R. E. McBride and daughter left last evening for Minneapolis, Minn., for a brief visit.

Mrs. J. S. McVey, two sons and one daughter, left last evening for their home at Kelly, N. M. Mrs. McVey came here last fall and placed the son in the State college, one daughter in the State academy and the other in the public school.

Dr. J. N. Minstree is again able to be in his office, after a brief illness at his home on Hinton avenue.

Mrs. Crowley and children, of El Paso, are guests of her mother, Mrs. Frank Elias, on South Main street.

Herbert W. Yee, who has been confined to his home on Griggs street on account of sickness, is again able to be at work in the real estate office.

Miss Merle Knights, daughter of F. H. Knights, who resides three miles northwest of Las Cruces, has a position in the office of Edmondson Link, on North Main street.

Mrs. D. E. Lane is recovering slowly from a critical illness, at her home on Griggs street.

Samuel Tonkin and family have arrived here from Kelly, N. M., and intend making their future home in this vicinity. They lived many years in the mountains in the vicinity of Organ.

Miss Edith Armer, who has been a student of Loretto academy, left last night for her home at Kingston, N. M.

Mrs. W. J. Lloyd, daughter and two sons, left last evening for Uniontown, Pa., their former home. One son, Richard, will remain here during the summer months in the employ of P. W. Barker.

Paul H. Stoes, son of Mr. and Mrs. Henry Stoes, left last evening for Lake City, Minn., where he will spend the summer.

Mrs. W. M. Adair and son, John, have gone to San Diego, Calif., to spend the summer.

Mrs. Florence Dwyer and daughter, Miss Florence, went to El Paso this morning. The daughter has been in the Loretto academy here the past year.

AGED GLOBE WOMAN DISAPPEARS IN GLOBE

Globe, Ark., June 12.—Mrs. Hattie Williams, an aged and infirm woman, disappeared from her home on Blake street Monday night, and her sons fear that she has taken her life. She took a .38 calibre pistol with her.

The sheriff's office was notified of the disappearance and a searching party started at daybreak to scour the country surrounding the town for the missing woman. Mrs. Williams' two sons led parties yesterday that searched the old tunnels, mine shafts and hills in this vicinity but no trace of the missing woman was found.

Twenty-five thousand dollars is the value placed on his left eye by Benjamin C. Nevins, a young mining engineer, who has filed suit for that amount against the Miami Copper company.

Nin sent forth in his complaint that on July 7, 1912, he was working as a mine sampler at the Miami mine and that the point broke off a nail which was being used by another sampler, and struck him in the left eye, causing him to lose his sight.

Saturday Closing.

During June, July, August our store will close at 5:30 p. m. El Paso Piano Co.—Advertisement.

For select dancing by El Paso's best society people. Enjoyed six nights in the week.—Advertisement.

NEW ROSWELL JUDGE

Roswell, N. M., June 12.—G. A. Richardson, of this city, who was recently named by governor W. C. McDonald as additional judge for the fifth judicial district of the state, has announced his acceptance of the appointment and will begin the duties of the office on a special term of court at Clovis June 18.

P. K. Seuer, an El Pasoan, who has completed a medical course at the University of Pennsylvania, has returned to El Paso. On July 23 he will leave for New York, where he will spend two years in one of the city's hospitals.

Run Engine on Mexican Central

For Ten Years—He Tells About the Use of Plant Juice in His Home.

Mr. W. S. Davis, former proprietor of the hotel Cristobal, who now lives at 501-1-2 Mesa Avenue tells at Kelly-Pollards Drug store the following:

"I want to get two more bottles of your Plant Juice. We are leaving today on the Golden State Limited for California and I don't want my wife to stop taking it. She has suffered for years with constipation and complicated nervous troubles. We knew people here who were benefited by Plant Juice and I bought her a bottle. It has helped her from the start, her nervous trouble has nearly left her, she is not constipated any more and her complexion is clear. I cannot speak highly enough of the good Plant Juice has done her."

More than half the people live life for less than it is really worth because of weak nerves, low vitality and a system clogged with impurities. Plant Juice tones up the liver, stomach and kidneys and removes the impurities as God intended they should be removed before natural medicines were ever thought of. If you have indigestion, are bilious, nervous and worn out, go to Kelly-Pollards and get a bottle and try it.—Advertisement.

Why Scratch?

"Hunt's Cure" is guaranteed, to stop and permanently cure that terrible itching. It is compounded for that purpose and your money will be promptly refunded WITHOUT QUESTION if Hunt's Cure fails to cure Itch, Eczema, Tetter, Ring Worm or any other Skin Disease. 50c at your druggist's, or by mail direct if he hasn't it. Manufactured only by A. B. RICHARDS MEDICINE CO., Sherman, Texas

FIND READY MARKET FOR NATIVE CATTLE

While Mexican Ranches Are Tied Up Texas Cattle Are Being Shipped To Outside Points.

With the Mexican railroads tied up, local cattlemen are finding a ready market for native stock and those Mexican cattle which they have held on for some time. On Wednesday L. E. Booker shipped 749 head of 1 year old steers to M. Dugan, at Lusk, Wyo. The cattle came from the Val Verde ranch, near Juntura, Oregon.

Louis Pencher brought over one hundred from Juarez for local consumption.

The Cameron Cattle company sold 50 head of native cows to Mossman and Perry, of Obar, N. M., to which point they will be shipped.

W. W. Connel brought in a trainload of cows, heifers and steers from Tucson, Ariz. The steers are at stock and will be shipped to Denver, Colo.

C. T. Told shipped two carloads, about 40 head of native steers to M. Dugan, at Lusk, Wyo.

They are native Arizona stock purchased from the Piman Cattle company.

W. F. Bigham, W. L. Amos and T. Bailey, of the Bigham-Love Livestock company, are down in Chihuahua making up the ranches in the valley.

They have several thousand head of stock down there tied up on account of the inability of the railroads to move them. They will be gone for a week or two.

DENVER COURT REBUKES ATTORNEYS IN MURDER CASE

"Building" Methods of Examination in Murder Trial of H. F. Henwood Must Cease, Says Judge.

Denver, Colo., June 12.—District Judge C. C. Butler, hearing the second trial of Harold F. Henwood, who is charged with the murder of Geo. E. Copeland, today sternly rebuked the attorneys representing both the state and the defense, for the "building" methods of examination and cross examination of witnesses for days and this morning he dismissed the jury from the court room and rebuked the attorneys.

The judge declared that if any attorney connected with the case was furthering such a practice it must be stopped. He warned the attorneys to discontinue examination of witnesses in a loud voice, and ordered them to stop "waving" their arms in the air during the examination.

The defense today spent its efforts in an attempt to prove that Henwood was acting in self defense when he fired the shots which killed Sylvester L. Von Phil and Copeland, a bystander, following an attempt on Henwood's part to recover letters which Mrs. John W. Springer, a society woman of this city, had written to Von Phil.

MAY A DRY MONTH FOR ALL NEW MEXICO

Santa Fe, N. M., June 12.—According to the monthly report of the climatological service the month of May was a very dry month in New Mexico, with temperature slightly above normal.

The precipitation of the month averaged only about one-third of the normal, but the state was much drier in 1905 and 1909, averaging only 0.07 and 0.11 inch respectively.

Revenue Loss \$24,500,000.

Changes in the Underwood tariff bill by the senate finance subcommittee transferring proposed dutiable articles to the free list, will aggregate an estimated annual loss in revenue to the government of nearly \$1,000,000 a year. This estimate is based on many articles in the various schedules. Added to the \$25,000,000 estimated loss in revenue under the house bill free list, this would aggregate \$26,500,000.

Hemp on the Free List.

Included in the senate list are the revenues that would be derived from hemp, which the Underwood bill makes dutiable, but which the senate subcom-

LOUISIANA INDUSTRIES JOIN FIGHT IN SUPPORT OF SUGAR PRODUCERS

Witness Before Tariff Lobby Probers Says All Interests Were Urged to Write President Wilson in Opposing Free Sugar—The Tariff Free List Will Reduce the Revenues More Than \$26,000,000.

WASHINGTON, D. C., June 12.—

Paul Christian, secretary of the Louisiana Sugar Planters' association in Washington, testified before the senate tariff committee today that all industries in Louisiana were urged to join in writing the president what disaster they believed would follow the free admission of foreign sugar.

Truman G. Palmer, secretary of the United States Beet Sugar industry, testified before the committee since 1902, when he came here to oppose the Cuban reciprocity bill.

Palmer gave a long list of beet sugar producers who object to the promotion of the free sugar industry. Part of the work of "promotion" was to look after legislation he said.

Republicans to Fight.

Republican leaders in the senate are working hard in preparation for their fight against the Democratic tariff bill now being rounded into shape for debate.

Senator Penrose, ranking Republican member of the finance committee, is to lead the opposition on the floor after the bill is reported. Senator William Alden Smith, of Michigan, is to lead the fight against the sugar schedule although he has in writing the president what disaster they believed would follow the free admission of foreign sugar.

Senator La Follette, who has amendments which would practically take a new bill, plans to make a speech that will extend over a week.

Majority members of the finance committee are considering the consideration of the metals schedule today.

Sugar Men Admit "Lobby."

Investigation of the "sugar lobby" turned into a controversy over whether president Wilson had given the sugar producers reason to believe they would have "nothing to fear" from free sugar under his administration.

But a testimony in which Louisiana and Hawaiian witnesses repeatedly declared they had not received fair treatment from the president and had been misled by others as to his purpose, the committee succeeded in drawing what are believed to be some of the most important facts thus far developed. Some of the sugar men frankly admitted they had been misled by others as to his purpose, the committee succeeded in drawing what are believed to be some of the most important facts thus far developed.
